Bremen, 16th October 2011

Dear Cor, David, Janny, & Jacqueline.

Please allow me a few moments to thank you for the opportunity to travel to Papendal and the very kind hospitality afforded to me yesterday.

It was an inspiration to witness the G-Class Dutch Championships, at first hand, followed by Wheelchair events mixed in with Senior and Amateur DanceSport competitions using the same floor and facilities. It is a lesson that many administration colleagues should also witness at first hand.

I know of other persons, around the world, who will be heartened with this news and hope that it will encourage them to follow a similar format within their organisations and communities.

Thank you also for the opportunity to talk with Corrie van Hugten, it was encouraging and we will do all we can, at Daance.com, to inform the international dancing community of what is possible with G-Classes and on wheels.

The date for 2012 has been reserved in my organiser. Between now and then much water will pass under the bridge with opportunities to send out many messages on various administration dancing matters.

Thank you all once again with much continued success with Dutch Dance Events.

Yours very sincerely,

Stuart
